The World Beaters Puma's WONDER Shoes.

Puma Wonder Shoes give better traction, eliminate wobble on turns. Special Achilles tendon pad and adjustable Velcro® Closures give added safety, better fit. And now you can have the newest Puma Wonder Shoe, The 296.

This is the track shoe of tomorrow that Puma is making today.

A revolutionary new concept, designed for use on Tartan all-weather tracks, it already has bettered world records 4 times—twice in the 200 meter, twice in the 400 meter; and American records 4 times in the 600 meter.

Shown: **Puma Wonder Shoe No. 296**, as described above (red Kangaroo Velour, White trim 68 brush like spikes).

Puma Wonder Shoe No. 291 (White Kangaroo, Black trim but with 4 detachable spikes).

Puma Wonder Shoe No. 292 (Red Kangaroo Velour, White trim with 4 detachable spikes)

Puma Wonder Shoe No. 293 (Red Kangaroo Velour, White trim, chrome sole, 6 permanent spikes. All made with Velcro® closures.

High Jump: Dana (Waverly-Shell), Lantz (Atlantic), Burrows (Dubuque, Senior)	6'4 1/2**

Winners' Choice

Both from Voit. These are today's two "best buys" in quality game basketballs—the GBB and the XB20. Their long-wearing rubber composition covers are molded and fused to a cushioned carcass of advanced Icosahedron* design. Result: game balls that are unexcelled for performance—dribbling, passing and fingertip control. And balls that *hold* their official size, weight and shape.

The GBB is "panel-bilt" with individually molded panels vulcanized to the carcass; whereas the XB20 features the traditional Voit one-piece cover. Which is best? It's a matter of winners' choice.

*"Icosahedron" is a registered trademark of the W. J. Voit Rubber Corp.

CHAMPIONS IN
EVERY LEAGUE

Balfour is famous for famous awards and trophies. Our customers include the Jets, Colts, Tigers, Mets, Yankees, Commissioner of Baseball, Pro Football Hall of Fame, Baseball Hall of Fame, 76ers, and scores of other national, regional, and league champions in every sport.

The reason? Fine design, variety of choice, superior value for each customer dollar spent . . .

Those reasons are important to high school athletic directors and coaches. Balfour is trophy champion in high school athletics, too! Let us serve YOUR school.

HIGH SCHOOL RECORDS FOR STATE FINAL MEETS (FIELD)

Table showing high school records for state final meets in the field, listing various states and their best performances in Shot, Discus, Javelin, Long Jump, High Jump, Pole Vault, and Triple Jump.

Track Meet Management

In a poorly organized track meet there are often long delays. Those who pride themselves on efficient management usually set a time limit for the entire meet and make every effort to establish a new time record every time a meet is held. Here are a few promises which appeared on a recent program:

1. The meet will begin on the dot at 1:30 and everyone, including the contestants, can be on their way home by 3:00.
2. There will be one hour and thirty minutes of thrilling events and there will be activity during practically all of that time.
3. The public address system will keep everyone informed as to the winner and the technical features of the meet.
4. No contestants or officials will be on the field in such a position as to screen the view of spectators.

Materials Which Are Essential

For a well organized meet, the following must be available:

Loud speaker system and megaphones for supplementary announcers and callers, large scoreboard, scorer's table and platform for presentation of awards.

Large competitors' numbers and an adequate supply of safety pins, badges for the officers, medals and ribbons.

Press stand, ticket sellers, ushers and concession attendants.

Officers to keep the field cleared and to give protection where needed. A supply of rule books, state or national record application blanks and one or more anemometers.

Typewritten copies of interesting material relative to performers and historical facts about the meet for use by the announcer.

Instruction to Competitors

Preliminary material should remind coaches that all competitors should be instructed to act without assistance after the meet starts. There can be no coaching by attendants or any running along the side of the track. Competitors must rely upon themselves to know when to report for an event and how to proceed after the meet starts. A special section outside the track should be provided for the coaches.

Preparation for Field Events

A competent staff of assistants must be appointed by the management. Here are a few reminders:

General Equipment: Scales and instruments for weighing and measuring the throwing implements, several steel tapes and stickers to show that implements have been approved.

Shot Put: The circle should be marked by a metal, wood or plastic band. Practice rings are desirable. The stopboard should be properly pinned to the ground. The National Committee recommends a concrete surface.

Discus: The circle should be marked in a manner similar to that for the shot put. One or more practice rings are desirable. Lines of pen-

nants should indicate the throwing sector. Arcs at various distances may be marked with a material which is not injurious to the eyes or skin and markers on these arcs will enable the crowd to determine the approximate distance of each throw.

Javelin Throw: Concentric circles should be marked in the throwing sector starting with a distance of about 125 feet from the scratch line. This will enable the spectators to estimate the distance of each throw. Radial lines may also be drawn to aid the measurers.

Running Long and Triple Jumps: The pit should be properly filled and the surface should be level with the take-off board. There should be a rake for leveling the surface after each jump. The take-off board shall be painted white to make it more prominent. It is recommended that the ground immediately in front of the take-off board be slanted upward at a 30 degree angle. It will assist the jumper if the ground at the side of the runway is marked at intervals of three feet to enable jumper to adjust his stride.

High Jump: The standards should be inspected. A number of extra crossbars should be available.

Pole Vault: Use the same precautions as for the jumping events. Other convenient materials are: a step ladder, a stick for replacing the bar and extra pins for the standards.

Preparation for Track Events

In meets which involve four or more schools, the heat drawings should be made in advance by the Games Committee. In meets involving fewer schools, the contestants may enjoy drawing for the best lane.

Inspect all starting lines, finish lines and posts, hurdle marks, lane lines and exchange zones to be certain that they are accurately and prominently marked. An attendant should have a ball of yarn ready for each race.

Bottle pool balls or other drawing device, and mimeographed or printed cards or sheets for recording entries and heat winners should be on hand.

A starting pistol (.32 caliber for outdoor meets), blank cartridges and one or more referee's whistles should be ready and in good working order.

Stop watches must be properly regulated and inspected.

Several extra hurdles should be available and the hurdles should be placed near the marks where they will first be used. A ball of cord will be found useful by the hurdle setters in accurately lining up each row. A competent staff must be ready to promptly place and remove the hurdles.

A raised platform for finish judges and timers is necessary for accurate timing and judging. It is recommended that all meet managers have a platform for this purpose, set back from the track at least 20 feet. The officials' area at the finish should be roped off.

Batons must be available for the relay races.

Results of 1969 State High School Track Meets

EY: Winners of 1st, 2nd and 3rd places are listed in that order. Name of school is in parentheses. In meets having more than one class, winners are from the class having the best mark.

Use all 5 colors in +5

This is the same +5 that is used in the bowl games, ball parks, Little Leagues, playgrounds—everywhere... the same +5 that has been endorsed by coaches, athletic and recreation directors, physicians and other authorities throughout the nation. You can order it in any or all of five sparkling colors: Yellow Gold Stripe • Green Stripe • Orange Stripe • Bright Pink Stripe • White Stripe. It's absolutely safe. Special organic pigments in colored +5 are so safe they are used to paint children's toys. Will not stain. Washing takes it right out. Use +5—plain or colored—to make starting points, track lanes or to mark any athletic field. Wherever athletic areas are marked, play safe with +5.

ALUMINUM SPILL PROOF ROCKER HURDLES

Selected for most all the NCAA Championships from 1961 to 1969. Start the '70's with our championship hurdle.

GOLDEN BAR

New pole vault records were set over our non-breakable fiberglass crossbar at the 1969 NCAA and AAU Championships.

GOLDEN RIDE

A new profile in fiberglass poles . . . the parabola to improve performance.
