## Boys' track

(Top marks through Saturday)  
w—wind-aided  
n—non-wind

**Note:** Times in 100ths electronically timed—start and finish. Preference is given to electronic times over hand-stopwatch times when they conflict. Conversions for auto times are as follows: 100, 220, 120MH, 110LH — -0.24; 330LH, 440 — -0.14. Converted times always taken up to next tenth, not rounded off. Thus, converted electronic times rated ahead of hand-stopwatch times in some cases.
