

KING CITY TRACK AND FIELD INVITATIONAL

Hello Coach

We have some really good news here at King City High School. We have just finished a \$1.3 million upgrade of our stadium including an excellent blue Polyurethane track with 9 lanes. As you may know the King City Invitational was one of the best run track meets in the state with as many as 59 high schools and 1200 athletes attending. But with the increase of all weather track the attendance became smaller and smaller until we canceled it last year expecting only 10 schools to attend. Well, we're back and ready to go with out 71th King City Invitational. Once again we will have the well organized *on schedule* meet as we have had in the past and it will again feature the great coaches luncheon. We have added the Chagnons electronic finish line and scoring to the meet management and expect to have a top-notch meet. We will also again have Dave Daines around to help with the meet. *You are invited.*

Also, if you want to see an excellent track and runways, give me a call. I would be glad to talk to you about the company that put our track in and give you a personal tour of the track.

Hope to see you April 1st. *Please return the card* as soon as you can so I will have an idea as to how many schools are planning on attending.

Thank you, Jim Stireman, Meet Director
